Weather & Environmental Sensors
On today's competitive app market the ability to do things differently is the key to success. In a weather app, accuracy is the most important thing.

awake.ai

Pilotage
Vessels must use a pilot on public fairways which are located in Finnish waters and the part of the Saimaa Canal leased by Finland and which have been defined as fairways requiring pilotage.

WEGA

Mooring
At Vuosaari cargo harbour both SF Portservice as well as Nordic Port Services offer their mooring services.

PORT OF HELSINKI

Towing
Towing services at port of Helsinki are provided by Altons Häkans. Order of the tugs can be made via agent, VTS or directly from the tugs. At least a two hours' notification is required.

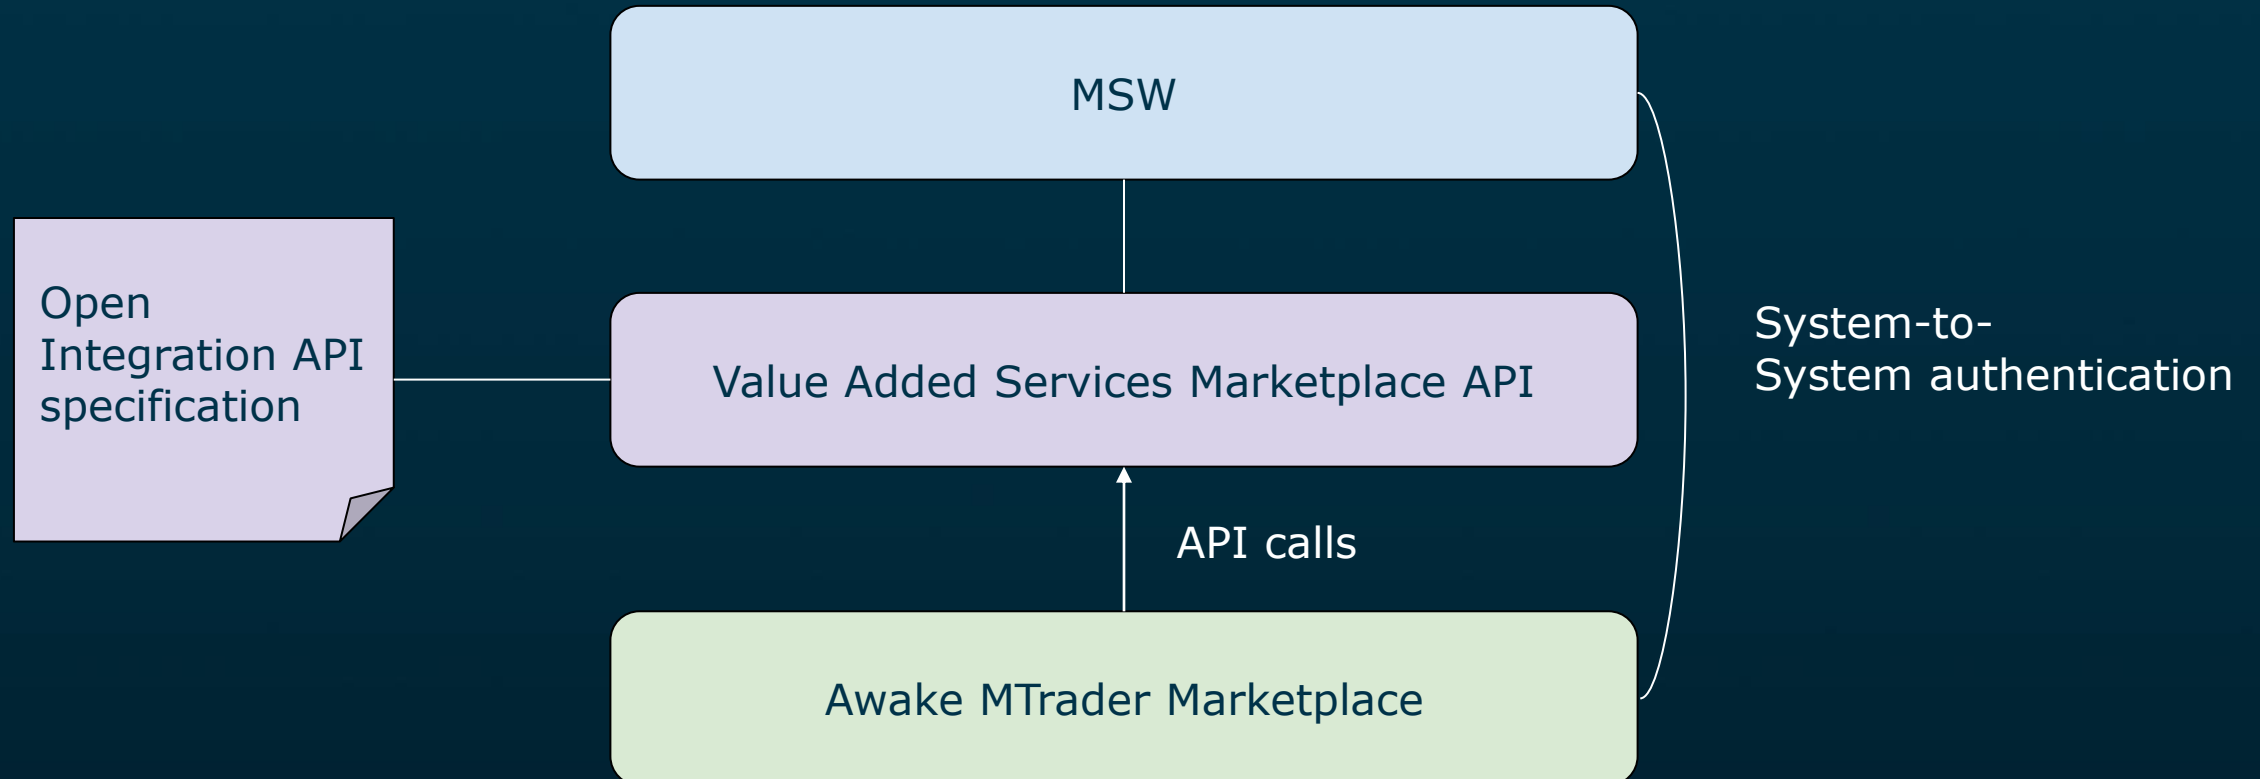

PORT OF HELSINKI

Bunkering Station
Bunkering station is available at all ports of Helsinki region. The port will provide services for water vessels at reasonable rates. The pricing depends on the day and season.

PORT OF HELSINKI

Maritime Single Window Opportunities

Achievements

Plan is to go live in Q1 2024 and have 10 ports and 50 companies in the ports using the marketplace by end of 2024
